PROFESSIONAL SUMMARY

As a software engineer, I aim to enhance my skills in a professional work environment, gaining valuable experience in web and mobile development. With a strong focus on UI/UX and front-end development, I strive to apply my expertise while contributing to innovative and impactful projects.

EDUCATION

- **Bachelor of Software Engineering**

Jeddah University, 2019 – 2024

PROJECT

- **Personal Portfolio Website**

Designed and deployed a fully responsive portfolio website using HTML, CSS, and JavaScript. Implemented animations and smooth scrolling using CSS and JavaScript, and hosted on GitHub with a custom domain via Cloudflare.

Key Technologies: *html , CSS , JS , GitHub, Cloudflare.*

- **Ui application**

Designed and prototyped a user-friendly UI application using Figma, focusing on modern design principles, user experience (UX) best practices, and interactive elements.

Key Technologies: *Figma.*

- **Casher software**

Developed a Java-based restaurant cashier system with a simple UI for order processing and invoice generation. The system saves digital copies of receipts for record-keeping and enhances operational efficiency.

Key Technologies: *java.*

Work Experience

- **Saudi Red Crescent Authority (Co-op)**

IT Support Intern – *2 months internship*

Responsibilities:

- Provided technical support for internal users
- Troubleshoot hardware and software-related issues.
- Participated in the maintenance and improvement of technical systems.

Courses

- Foundations of User Experience (UX) Design - *Completed*
- Introduction to Front-End Development- *Completed*
- HTML, CSS, and JavaScript Course Satr Platform – *Completed*
- Project Management Professional (PMP) Training – *Completed, Planning for Certification Exam*
- Google UX Design Professional Certificate - *in progress*
- Meta Front-End Developer Professional Certificate - *in progress*

SKILLS

- Strong sense of responsibility and reliability.
- Good knowledge of research and investigation to solve problems
- Quickly learn to new things.
- programing languages: java, CSS ,HTML , js
